

I have now received three (3) faxes from a group called 'The American Group' which is interested in buying businesses in my industry. They have contacted me through my fax line, 216-991-5525, which is the same as my home telephone. Twice I have called their toll free number, 1-800-653-6935, asking that my name be removed from their calling list. I just received their 3rd fax on March 22, 2005 at 12:37, and will call again asking to have my name removed from their calling list. I am tired of being told that it has been removed when it hasn't. The solicitation was signed 'Patricia Smith' and had a fax toll free number 1-800-520-3033. They should be stopped from bothering people.
